ONLINE TEANBUILDING

The Pegasus Project er en online teambuilding aktivitet i den virtuelle verden. spillet foregår i hold af 2-6 deltagere. Her vil I blive sat ind som hemmelige agenter, for at belyse hvad der egentligt foregår i The Pegasus Project.

Spillet vægter evnerne til at samarbejde højt. Det hele foregår online, hvilket gør det nemmere at tilrettelægge i jeres individuelle hverdag, og giver lige det sociale sammenhold man måske savner derhjemme fra. Spillet løses som et team, hvor I får lov til at selv bevæge jer rundt i den virtuelle verden.

HVAD SKAL I GØRE? HVORDAN FUNGERER DET?

- I skal hver især bruge en computer med adgang til internettet.
- Alle hold mødes og får en fælles introduktion, før I bliver fordelt ud i jeres teams.
- Hvert team får tildelt et online Zoom møderum.
- I vil under hele spillet, være i kontakt med jeres team (webcam anbefales).
- I vil under hele spillet, kunne bede om hints hos jeres bagvedliggende agent (FunCenter instruktør)
- Efter spillet samles alle hold og vinderholdet der klarede missionen hurtigst udpeges og fejres.
- Oplagt mulighed for videre social omgang f.eks. i form af en online fyraftensøl.
- 60 min. aktivitet. Afsæt dog 90 min. til introduktion, aktivitet og afrunding.

THE PEGASUS PROJECT

I er medlemmer af organisationen W.I.S.E som står for World Intelligence Secret Elite, og skal beskytte verdensfreden.
3 personer er omkommet i bio-tech virksomheden Spider Tech. Offentligt hævdes alle 3 at være "ulykker". Dette virker lidt for usandsynligt og derfor er der allerede igangsat en efterforskning. Dette har dog resulteret i, at den nuværende undercoveragent har sendt en mystisk video og har ikke givet lyd fra sig siden.
Heldigvis nåede han at sende et kort over bygningen og hvad han er nået frem til. Det er nu op til jer at finde ud af, hvad der foregår i Spider Tech og dele det med resten af verden!

Kan I klare denne mission? Så tøv ikke, ring til FunCenter og kom i gang!

ONLINE TEANBUILDING
The Pegasus Project is an online Teambuilding Game. You play this game together, as a remote game. The game is perfect to play with your colleagues, friends, family or the entire company in teams of 4-6 people. You will work as secret agents to uncover the plans of the Pegasus Project.

The game strongly focuses on collaboration and working well together. You can use it when different team members work remotely, and It's extremely suitable for creating online connection with each other. You solve it as a team together, and you can enter and examine all rooms virtually.

WHAT DO YOU NEED? HOW DOES IT WORK?
- Everyone needs a computer with an internet connection
- All the teams will meet up and will receive the same introduction before you go out into your teams
- Each team will get an online Zoom meetingplace.
- Throughout the game you will be in contact with your team (webcam recomended)
- While playing it is posible to ask for hints from your Game Master
- After the game is finnished all teams meet up again and the winning team is announced.
- Great oportunity to continue the social meeting afterwords and have a great time with your colleagues and/or friends.

THE PEGASUS PROJECT
You are a member of W.I.S.E. An independent and international intelligence agency, which stands for World Intelligence Secret Elite. W.I.S.E. protects the entire world from danger.
The Pegasus Project is a mysterious project by the biotech company SPIDER Tech. Recently 3 of their scientists were found dead. Officially they died in an accident. However, SPIDER is known as a dubious company and one of your colleagues, Agent Spike, was already working undercover there. He sent us a mysterious video a few days ago. After that we heard nothing from him anymore...
Fortunately, he managed to send us a map and the encrypted plans. And now it's up to you! Explore the building, find out what happened to the scientists and reveal the plans of The Pegasus Project in this super cool online escape game.

Your mission, should you choose to accept it, is to contact FunCenter to get started...
